

Feature

- High output, dual 18" infra subwoofer system
- Extended frequency range down to 32Hz (-6dB)
- Maximum SPL 139dB (peak)
- Low power compression
- Ultra low distortion

Description

The NOTCH AUDIO X36 is a subwoofer with an operating range of down to 32Hz. it is built for the most challenging scenarios where vigorous bass or infra-bass is needed.

X36 handles massive dynamic transients with 2 long excursion 18" neodymium 100mm voice coil woofer with Large Air Vent . It is primarily intended to add bass frequency and extension to systems based around any NOTCH AUDIO V-Series product to achieve unparalleled high impact and lowest frequency response

Specifications

Type	Subwoofer
Frequency Response (- 6 dB)	32Hz - 100Hz
Power Handling AES / Peak	2x1200w / 2400w
SPL Peak@ Half Space	139dB
Dispersion	Omni
Components	2x18" woofer
Normal Impedance	1 x 4Ω
Input Connectors	2×Neutrik NL4MP
Dimension (W×H×D)	1200 x 500 x 685 mm
Net Weight	78kg

** 1/2 space measurement
